

Purple Couture

Making a big impact on the world of wedding design this year, purple is the color of royalty - the symbol of luxury, power and ambition. With the amazing Plum Dahlia table cloth and exquisite stationery pieces, this design came to life and sparkles with delight. Recognizing that purple can be a dark color to design with, I knew that custom lighting would be important to this design. ACME Corp. highlighted the tables and the brick exterior walls to add texture and vibrancy to the setting. The end result - a stunning statement of high-end design and impressive details!
